CXO

Retractable Security Grilles

Bradbury's latest development in window protection, **CXO** is a padlockable diamond lattice security grille, suitable for residential properties. These grilles are a cost effective method of securing windows and doors, as they provide a secure visual deterrent during periods where the property is unoccupied.

Features

- **Made to measure** to meet individual requirements
- **Discreetly stacks back** to a fraction of the overall size
- **Available as a single** (locking to one side) **or double grille** (central lockpost)
- **Patented Crosslinx rivetless system** provides an attractive and strong alternative to rivets
- **Lift up bottom track** provides maximum accessibility
- **Easy to close and secure** with interlinking padlock clasps
- **Durable powder coating** in RAL 9016 (Traffic White)

Sizing

	Min Height	Max Height	Min Width	Max Width
Single CXO	500	2800	250	3000
Double CXO	500	2800	500	6000

CXO is part of the market leading **CX** range of retractable security grilles. Other Bradbury Group products include LPS 1175 certified grilles, steel security doors, substation/louved doors, fire doors, communal entrance doors, bar sets, and IT protection.
