

MR Martin Roberts

WE ARE WORLD-RENOWNED PROVIDERS OF PREMIUM ARCHITECTURAL DOORSETS

With over 40 years of experience in the industry, Martin Roberts is an established provider of premium architectural steel doorsets, enhanced by a full project management service. Martin Roberts is renowned for having installed doorsets into some of the UK's most iconic building schemes and commercial structures, and is also very proud of its export heritage.

We stand for quality, precision and beauty. The Martin Roberts team is experienced in providing exceptional solutions to varying building designs, with a focus on our doorsets providing functionality and performance, always with a view to complementing a scheme's design and aesthetic vision.

SYNONYMOUS WITH PRESTIGE

Having widely installed throughout the UK, some of our most notable projects include the Leadenhall Building, 20 Fenchurch Street, affectionately known as the 'Walkie Talkie' due to its unique shape, and The Gherkin.

Martin Roberts has also installed doorsets in major retail, residential and operational infrastructures including One Hyde Park, Trinity Leeds, Victoria Gate Leeds, the De Vere Building, Heathrow Terminal 5, and the Emirates Air Line.

We continue to work within major developments across the UK, and are proud to play our part in enhancing the country's skyline.

OUR FLAGSHIP SOLUTION: CAPITAL⁴⁵

An innovative design for inspiring buildings, the Capital45 is our signature product. This premium steel doorset is bespoke-engineered and precision-manufactured to suit varying architectural design requirements and project and performance briefs. With solutions for personnel, fire protection, security, acoustic, and emergency egress briefs, the Capital45 is designed to be a versatile doorset suited to varying building requirements.

Capital45 doorsets are tailored to each individual's needs and architectural specifications. The doorset can be supplied with a range of varying configurations, accreditations and aesthetically-pleasing polyester powder coated finishes. We can also future-proof our doorset with in-built wiring and reinforcement support to allow for access control solutions to be added at some point in the future.

SUITABLE APPLICATIONS

Our team will work with you to configure the doorset to your specific design requirements.

COMMERCIAL BUILDINGS

LUXURY ACCOMMODATION & HOTELS

TRANSPORT HUBS & RAILWAY STATIONS

RETAIL COMPLEXES & SHOPPING CENTRES

SCHOOLS & UNIVERSITIES

A PARTNERSHIP IN EXCELLENCE

Martin Roberts is a proud member of the Bradbury Group family. Combining the Group's unrivalled manufacturing capabilities and knowledge of physical security products, with our prolific client base and project management heritage, we can provide a full suite of holistic physical security solutions, tailored for your project.

Our suite of solutions can include certified doors, available with LPCB accreditation from LPS 1175 SR2 to SR4. These doors are also available with optional fire or acoustic accreditation, vision panels, and louvres for ventilation.

A PREMIUM TOUCH

We believe that our doorset solutions should never compromise the aesthetic integrity of a building. We furnish all of our Capital45 doorsets with a prestigious range of ironmongery, supplied by market leaders.

OUR SUITE OF SOLUTIONS

CERTIFICATION SOLUTIONS

FIRE & SMOKE

Certified by Warringtonfire under the CERTIFIRE scheme, our doorsets provide integrity fire resistance for up to 240 minutes, as defined by BS EN 1634-1:2008 or BS 476-22:1987. Capital⁴⁵ doorsets have also passed rigorous smoke testing.

ACOUSTIC

Tested by BRE to BS EN ISO 10140-2:2010, Capital⁴⁵ doors are available with an acoustic rating, providing up to 36dB of noise reduction, depending on the specification required.

THERMAL

Certain Capital⁴⁵ doors are available with a thermal rating from 1.9W/m²K to 3.8W/m²K, depending on specification.

ROBERTS SALES TEAM TO DISCUSS YOUR
PARTICULAR REQUIREMENTS.**

TECHNICAL SPECIFICATIONS

QUALITY & PRECISION

Martin Roberts offers a fully coordinated design, manufacture and installation package, as well as a professional project management service, to provide customers with a superior-quality product, efficient service, and peace of mind. Our project team has been trusted for over 40 years to deliver seamless project management including estimating, design, manufacture and installation services.

We like to keep project communication simple and clean, with one clear contact point for our clients. As experienced project managers, we can coordinate the use of products by third party suppliers, which have been specified for a project, along with our own, ensuring one streamlined package, encompassing all components for the client.
